**\*Prices are per piece, per location. Shirts, pants, and bags can't be combined; they are all separate runs.**

**\*\* All colored garments need an underbase; add a screen and a color to pricing. (White ink is considered 2 colors; it needs a FLASH and a second print to become bright white. Another example would be yellow on black apparel. A WHITE BASE is needed to achieve a bright yellow.)**

### **Artwork Guidelines**

-We work with Adobe Illustrator and Adobe Photoshop. We accept AI and EPS format files that are not bitmap embedded images. We do accept raster images, and they should be saved as TIFF or PSD format. All raster images need to be saved to print size, 300 DPI, and all text converted to outlines. Additional art charges may be required upon review at a rate of \$50 per hour.

-RS Imprints owns all screens, films, and separation files for output.

-Graphic design/Art Edits are billed at \$50 per hour

-Re-orders need submitted with previous art approval

## **Shipping & Receiving**

**\*\*\*RS Imprints is not responsible for items lost or damaged in transit\*\*\***

-Shipping charges are based on weight, dimensions, and zip code. We use UPS by default. Fedex shipments need to be scheduled by the customer a day before the order ships.

-Wrong addresses or unspecified residence are subject to a \$20 UPS Charge.

-Bulk Breakout and sorting of large orders (2500+) - \$50/hour billed in 30 minute increments

-Unpackaging product (Removing bags, tags, etc.) - \$0.10 per piece

## **Spoilage**

-Our spoilage is rather insignificant, but it does happen; it is screen printing after all. We allow for a 2% spoilage rate. We will credit the account or replace any damages in excess of one piece or 2%; whichever is greater.

-Triblend, 100% polyester, and pigment dyed garments require extra care when printing. We have a 3% spoilage rate for these garments.

-If orders need to go out exact, we recommend providing an extra shirt per size. We can either print those garments with the order at no charge or send them back blank. We find this method is much cheaper for us and you the customer than to re-setup the job a week later for a missing or damaged item.
